RECOMMENDED READING LIST FOR TEENAGERS IN THE "CITY-WIDE SHARED READING"

CAMPAIGN: PROMOTING CITY-WIDE READING IN SCHOOLS

深圳以“每周半天阅读课”为核心，全面赋能书香校园建设。联动市教育局实施“每周半天计划”，覆盖100所试点校、333所先行校，累计开展1.9万课时，惠及超139万学生、2.8万教师，并鼓励非试点校广泛参与。

Shenzhen takes "half-day reading class per week" as the core to fully empower the construction of scholarly campuses. In collaboration with Shenzhen Municipal Bureau of Education, it has implemented the plan of "Half-Day Reading Class Per Week", covering 100 pilot schools and 333 leading schools, with a total of 19,000 class hours delivered, and benefiting over 1.39 million students and 28,000 teachers. Meanwhile, it encourages broad participation from non-pilot schools.

强化阅读课时保障：课程隔周安排至少连续2课时，倡导自由阅读、落实全科阅读、探索AI赋能阅读；校内打造沉浸式阅读空间与班级书房，校外联动多方构建15分钟校园阅读圈。同时招募公益阅读推广大使，充实“深圳市公益阅读导师资源库”，常态化开展阅读推广活动。

Strengthening the guarantee of reading class hours: Arrange courses for at least 2 consecutive class hours every other week; advocate free reading, implement all-discipline reading, and explore AI-enabled reading; build immersive reading spaces and class libraries on campus, and connect with multiple parties off campus to build a 15-minute campus reading circle. Meanwhile, recruit public welfare reading promotion ambassadors to enrich the "Shenzhen Public Welfare Reading Mentor Resource Library" and carry out reading promotion activities on a regular basis.

积极响应全民阅读进校园，深圳书城的青少年阅读推广行动持续升级。此前，深圳书城联合人民文学出版社、深圳出版社等二十余家权威出版机构，汇聚儿童阅读与语文教育领域专家学者，推出《“全城共读”青少年分级阅读推荐书单》，精准对接“每周半天阅读课”政策需求。近日，“爱读”青少年分级阅读推荐书目（2026）接力发布——立足深圳本地青少年阅读现状与各阶段认知发展规律，以教育部基础教育课程教材发展中心发布的《中小学生阅读指导目录（2020年版）》为选品基准，将权威书目进一步科学适配、精准分级，从小学到高中划分为五大阅读包，涵盖人文社科、文学、自然科学、艺术四大领域，让权威优质的阅读资源从校园课堂延伸至家庭日常，为青少年铺就一条贯穿全学段的“精神营养成长图谱”。

Actively respond to the promotion of city-wide reading in schools, and continue to upgrade the teenager reading promotion initiatives of Shenzhen Book City. Previously, Shenzhen Book City joined forces with over 20 authoritative publishing institutions including People's Literature Publishing House and Shenzhen Publishing House, gathered experts and scholars in the fields of children's reading and Chinese language education, issued the Recommended Book List for "City-wide Shared Reading" Graded Reading among Teenagers, and precisely matched the demands of the policy of "Half-Day Reading Class Per Week". Recently, Recommended Books for "Love Reading" Graded Reading among Teenagers (2026) have been released in succession. Based on the current reading status of local teenagers in Shenzhen and the cognitive development rules at each stage, Shenzhen Book City takes the Guiding Catalogue for Reading of Primary and Secondary School Students (2020 Edition) issued by the Center for Basic Education Curriculum and Textbook Development of the Ministry of Education as the selection benchmark, further scientifically adapts and accurately grades the authoritative books, and divides such books from primary school to high school into five reading packages covering four fields including humanities & social sciences, literature, natural sciences and arts, so as to extend authoritative and high-quality reading resources from campus classrooms to the daily life at home, and lay a "spiritual nutrition growth map" throughout the entire learning stage for teenagers.
